

# Airsoft. Connected.

“The new tech was awesome!”

Add easy-to-deploy, durable, sensor, and cloud-based elements to your Field for a more realistic and enhanced experience. Players interact with our system using RFID bracelets to capture points, arm or disarm bombs/IEDs, track medic status or respawn,, and other necessary gameplay capabilities. Gameplay is overlaid on your field map and updated in real-time for Commanding Officers, players, or anyone interested to track the action live!

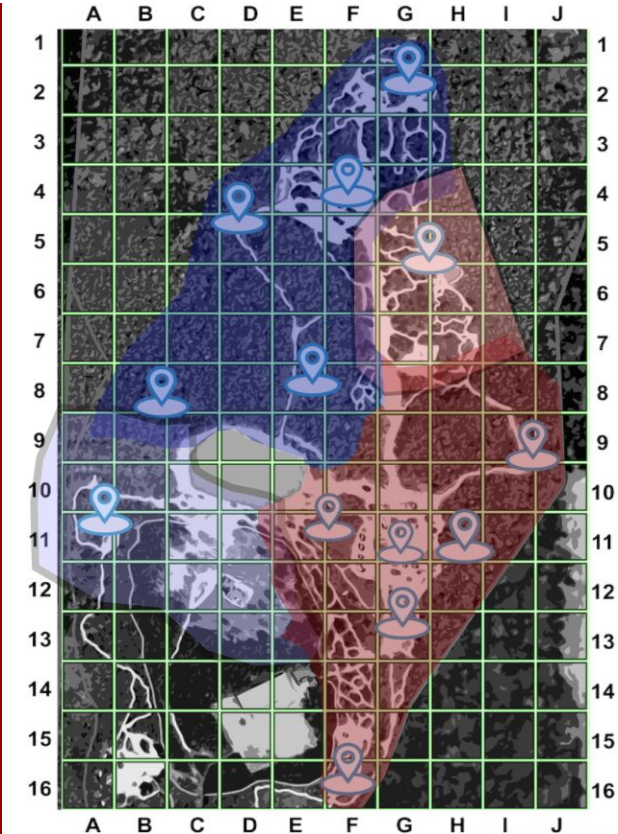

Enhanced Safety.

Fan Favorite Missions.  
Customized.

New Customer Engagement  
Channels

## Get Equipped!

### 01 Design Session

Skirmesh hosts your team in a video call to discuss field size, needs, and interests to determine the best hardware package and subscription for your field.

### 02 Hardware Package

| Small   | Medium   | Large  |
|---|--|--|
| 5-10 Devices<br>50 RFID bands<br>1 Custom Map | 11-15 Devices<br>100 RFID bands<br>3 Custom Maps | 16+ Devices<br>150 RFID bands<br>5 Custom Maps |

### 03 Subscription

|           |                          |
|-----------|--------------------------|
| Squad     | 10 or fewer Devices      |
| Company   | 10 - 15 Devices          |
| Battalion | Unlimited Device support |
